

### **Sarah De Val awarded Foundation Leducq programme grant**

July 23, 2018— A team of six researchers, including Ludwig Oxford's Sarah De Val and those from Germany and USA, have been awarded a prestigious [Fondation Leducq](#) Transatlantic Networks of Excellence Programme grant. These collaborative awards provide \$6 million over five years for work centred on cardiovascular and neurovascular disease. Sarah's team will characterise the transcription factor Klf2 and its role in blood vessel biology.
